KT-927 Product function characteristics

It is suitable for all kinds of sharp bend pipe. The machine is light and the drive shaft is soft and easy to bend. The flexible shaft cleaning machine for fresh air pipeline drives the shaft to rotate through the high-speed rotation of the electric pistol drill to achieve the purpose of fast cleaning. It has the characteristics of simple operation and no space limitation.

Powered by an electric pistol drill

The electric drill has 25+1 adjustment, which can adjust to the appropriate degree according to the working conditions, simple operation and no space limitation; Class A lithium power battery, the drill lasts up to 8 hours

wide range of application

Ball type brush head design, suitable for pipe into the guide, ball head brush hair is short, suitable for all kinds of sharp bend pipe.

Special wear-resistant flexible shaft

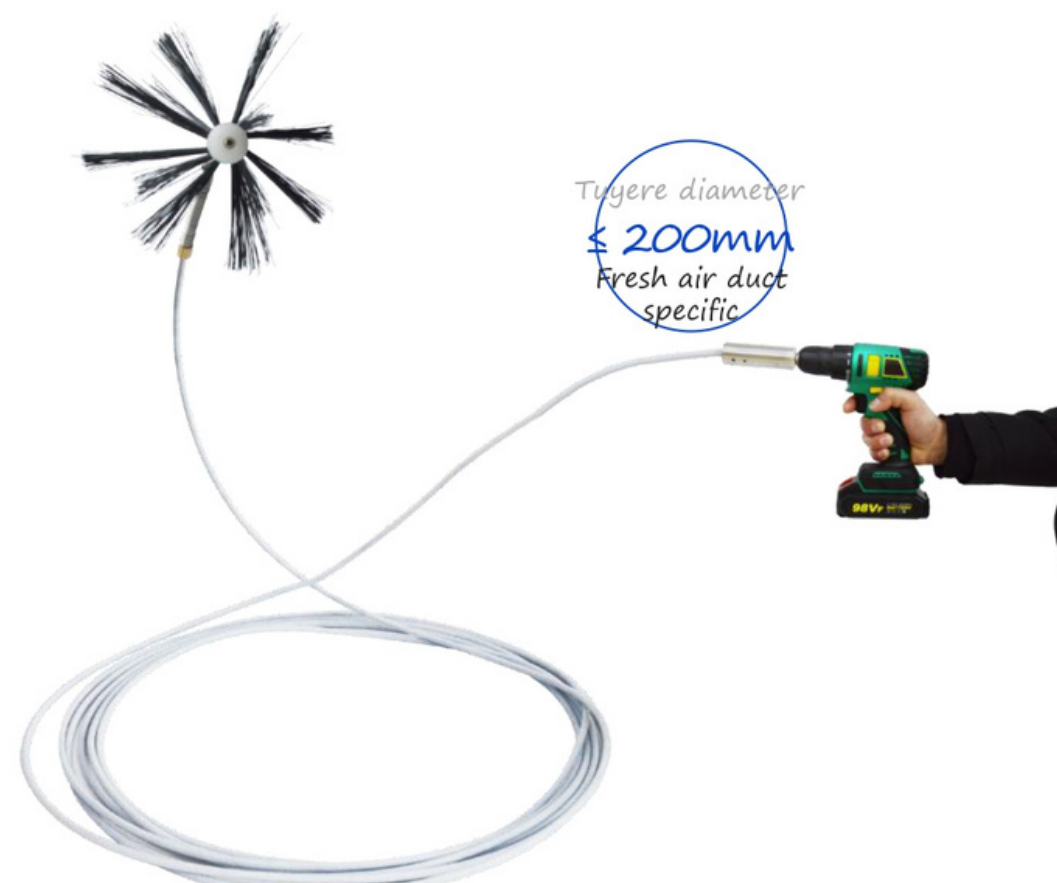

Standard 8m flexible shaft, flexible shaft with new wear-resistant sheath can achieve: wear/high temperature/corrosion resistance/high lubrication non-stick, electrical insulation and anti-aging.

Stainless steel spring sheath

A stainless steel spring sheath is added between the flexible shaft and the ball head brush, making it easier to bend

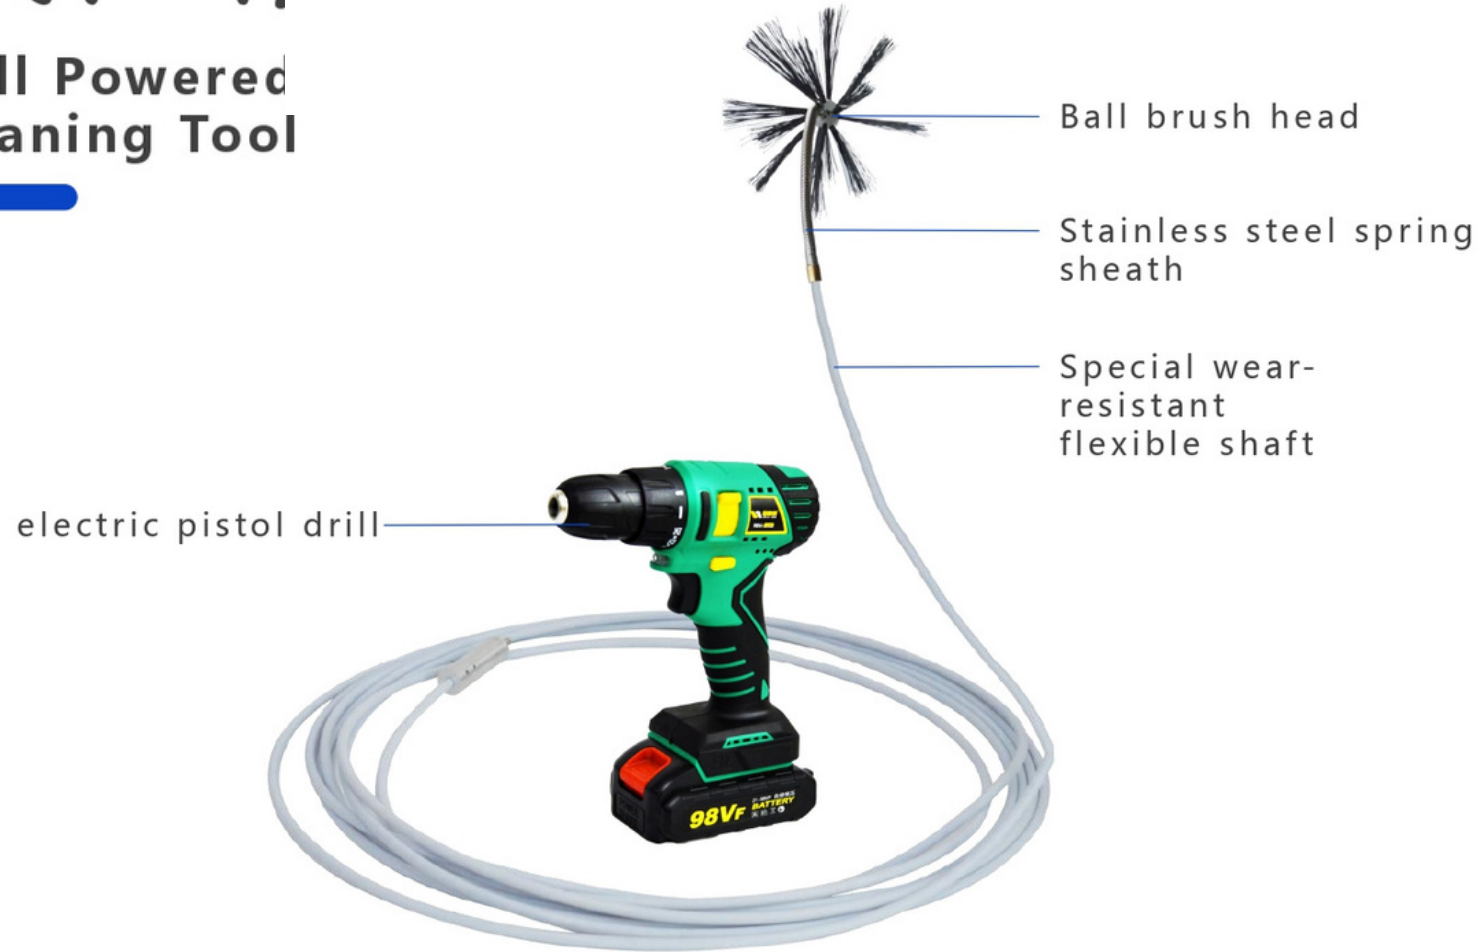

Tyrene diameter
≤ 200mm
Fresh air duct specific

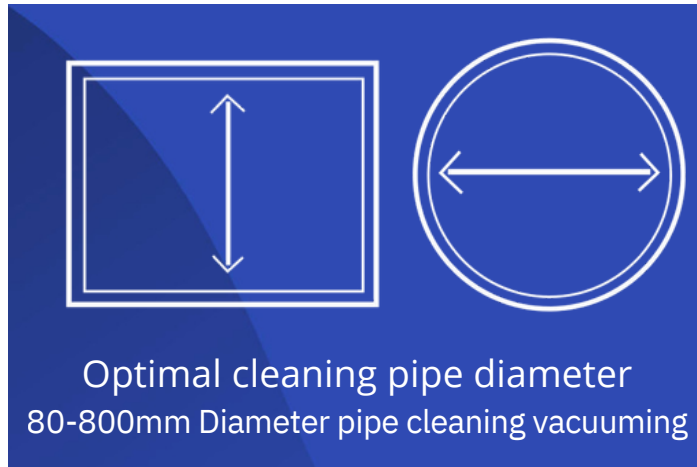

Suitable for fresh air system pipelines below 200MM/Miniature tube/Sharp bend cleaning
