PRV-450

Compact Vacuum That Does It All

DID YOU KNOW...?

90% of all ventilation system component failures are caused by debris in ducts.

PRV450

Powerful two stage vacuum, remote control, twin HEPA cartridge filters and clever modular design make this versatile air vent cleaning system a no-brainer for any job. The AQ-RV450 can be used as a roll anywhere self contained air vent cleaning system or the light weight modular power pack can be detached from the carrier and placed right next to the job. The two directional rotating brush safely removes debris while the dual vacuum motors pull up to 341 m³/h back through the hose into the module's disposable vacuum bag. Clean HEPA filtered air is then exhausted from the bottom of the unit.

PRV450-60:

Dual 9,5 and 13 Amp, 115 V, 60 Hz AC. Combination brushing and HEPA filtered vacuum cleaner machine with 38,1 mm x 10,67 m hose assembly and three duct cleaning brushes.

PRV450A-50:

11 Amp, 230 V, 50/60 Hz AC. Combination brushing and HEPA filtered vacuum cleaner machine with 38,1 mm x 10,76 m hose assembly and three duct cleaning brushes.
